How Uniq365 Works

How does Uniq365 work?

Uniq365 is a cloud-based Enterprise Resource Planning (ERP) system designed to streamline business operations, particularly for small and medium-sized enterprises (SMEs). Developed by A2000 Solutions Pte Ltd, a Singapore-based software development company, Uniq365 offers a comprehensive suite of tools to manage various business functions.

Key Features of Uniq365:

- **Full Accounting:** Provides complete accounting functionalities to manage financial transactions and reporting.
- **InvoiceNow Ready:** Supports electronic invoicing, enabling seamless and efficient invoice processing.
- **DocHub Repository:** Offers a dedicated platform for storing and organizing financial documents, facilitating easy access and management
- **XBRL Reporting:** Assists in generating reports in the eXtensible Business Reporting Language (XBRL) format, ensuring compliance with regulatory standards.
- **Sales and Purchasing Modules:** Manages sales orders, purchasing processes, and inventory control to optimize supply chain operations.
- **Tax Management:** Simplifies tax calculations and compliance, reducing the risk of errors.
- **Multi-Currency Support:** Enables transactions in multiple currencies, beneficial for businesses operating in international markets.
- **WhatsApp Integration:** Facilitates communication by integrating with WhatsApp, allowing for quick interactions with clients and team members.
- **365/24/7 Usage:** Being cloud-based, Uniq365 is accessible anytime and anywhere, providing flexibility and continuous availability.

By digitizing business operations, Uniq365 aims to improve productivity and efficiency, offering scalable solutions that can be tailored to the unique needs of businesses. Its cloud-based nature ensures that data is accessible in real-time, promoting informed decision-making and streamlined workflows.
